Secure your cloud with FortIT

Your organization strives for the **advantages** of the cloud: **scalability**, **cost-efficiency**, and **global reach**. Yet, embracing these benefits also means navigating the intricate **challenges** of ensuring **robust security** and maintaining **tailored compliance**.

FortIT provides **tailored cloud security** and **compliance** solutions, so that you can harness the cloud's benefits **confidently** and **securely**.

Your benefits

- **Agile infrastructure:** Flexible, scalable cloud environment using state-of-the-art technologies

- **Transparent oversight:** Full visibility of cloud-related security, and technology risks

- **Compliance:** Technical and procedural solutions ensure full legal and regulatory compliance

- **Lean approach:** Minimal Viable Cloud designed for scalability in a dynamic environment

- **Operational savings:** Optimize your budget by investing only in the resources you need

Cloud security requires comprehensive consideration of various aspects

The FortIT advantage: Unpacking our cloud services

Our services and their value to your business

Cloud strategy and maximizing value

Comprehensive planning and transition roadmaps aligned with your business goals and protection needs for future-proof investments and maximum ROI.
Realize the full potential of your cloud solutions securely and effectively.

Cloud security governance

Clear responsibilities and frameworks to manage and monitor your cloud security posture for sustained protection and proactive risk management.
Increased control of your cloud security.

Cloud security analysis

In-depth assessments of your cloud architecture, applications, and operations to identify and mitigate your vulnerabilities or weaknesses.
Remain resilient against emerging threats.

Compliance & third party risk management

A structured approach ensures your cloud operations align with regulations like FDPA and manages risks associated with third-party integrations.
Achieve compliance while keeping data safe and secure across platforms.

Our expertise and experience help you succeed

✔ Proven cloud knowledge and implementation experience at strategic and conceptual levels

✔ Deep understanding of cloud legal and regulatory requirements (FDPA, FINMA, GDPR, etc.)

✔ Hands-on experience in technical implementation and scaling with modern cloud technologies
