

# Peace of mind with FortIT's CISO as a service

In today's ever-evolving **cyber risk landscape**, classic defences fall short. **Compliance requirements** and the need to **align business and security** goals call for **holistic governance**. FortIT's CISO as a Service delivers **flexible on-demand expertise** to navigate these complex challenges.

Our experts serve as your CISO, **safeguarding your data** while **navigating complex regulatory** landscapes.

## Your benefits

- **On-demand service:** Security expertise, when you need it
- **Cost-effective:** A pool of expert resources, without the overhead of salaries, benefits, and training
- **Scalability:** CISO services can be scaled up or down, for flexibility without long-term commitments
- **Experience:** Multiple profiles with experience and expertise across industries and security domains
- **Compliance:** Deep knowledge of regulatory frameworks combined with continuous oversight

We provide expert support in the following CISO areas of activity:
